PROFILE SUMMARY

Dynamic Civil Engineer (B.E.) with professional expertise spanning large-scale infrastructure and residential billing. Proven track record in preparing high-accuracy DPRs for government water schemes and managing complex running account (RA) billing cycles for residential projects. Tech-forward professional who integrates AutoCAD and Q-GIS with Python and SQL to automate estimation workflows and enhance data integrity.

EXPERIENCE

Tricon Infra Buildtech Pvt. Ltd. <i>Jr. Billing Engineer</i>	Kondhawa, Pune <i>Apr 2026 – Present</i>
Orchestrating running account (RA) bills and precision quantity estimates for high-density residential construction projects.	
Executing rigorous AutoCAD drawing reviews and field measurement verifications to ensure 100% billing accuracy and cost control.	
Streamlining progress billing by facilitating high-level coordination between site teams and subcontractors to meet project milestones.	
NJS Engineers India Pvt. Ltd. <i>Assistant Engineer</i>	Raigad, Maharashtra <i>Dec 2023 – Dec 2024</i>
Prepared detailed project reports (DPR) for government water supply schemes (JJM/MJP), ensuring all estimates remained within sanctioned budget limits.	
Designed water tank capacities and maintenance projections using Google Earth, Q-GIS, and WaterGEMS for Raigad district schemes.	
Maintained critical coordination between contractors and government officials to ensure smooth project approvals and timely execution.	
Mehendale & Associates, Structural Engineers <i>Internship Trainee</i>	Raigad, Maharashtra <i>Dec 2022 – Jan 2023</i>
Assisted in RCC structural estimation, translating complex drawings into BOQ data using IS code provisions.	

EDUCATION

G.M. Vedak Institute of Technology <i>Bachelor of Engineering in Civil Engineering</i>	Tala, Maharashtra <i>June 2023</i>
Maharashtra Polytechnic <i>Diploma in Civil Engineering</i>	Shenale, Maharashtra <i>June 2020</i>

ACADEMIC PROJECTS

Mahad Flood Causes and Prevention Study
Analyzed hydrological data with local committees to recommend drainage and embankment improvements for flood prevention.
Solar System Upgradation Energy Analysis
Utilized Q-GIS for solar irradiance analysis and conducted cost-benefit evaluations for public building solar implementation.

SKILLS

Software
AutoCAD (2D), Q-GIS, WaterGEMS, MS Excel (Advanced), Python, SQL, Power BI
