PROFILE SUMMARY

Civil Engineer with B.E. and 13 months of professional experience in cost estimation and infrastructure project coordination for government schemes (JJM, MJP). Proficient in AutoCAD quantity take-off, BOQ preparation, rate analysis, and Q-GIS. Additional skills in Python and SQL for automated estimation workflows.

EDUCATION

G.M. Vedak Institute of Technology
Bachelor of Engineering in Civil Engineering

Tala
June 2023

Maharashtra Polytechnic
Diploma in Civil Engineering

Shenale
June 2020

EXPERIENCE

NJS Engineers India Pvt. Ltd.
Assistant Engineer

Raigad, Maharashtra
Dec 2023 – Dec 2024

Prepared accurate cost estimates for JJM MJP schemes, leading to effective risk mitigation and ensuring projects remained aligned with initial budget forecasts.

Conducted quantity take-off from AutoCAD drawings and cross-verified with site measurements — maintained 100% accuracy across all project documentation

Applied Q-GIS for spatial mapping of infrastructure alignment — supported accurate estimation of earthwork, pipe laying, and civil works quantities

Prepared progress reports and cost variance analysis for senior management and client review

Supervised site activities across multiple project phases — coordinated with contractors and government stakeholders to meet milestones on schedule

Mehendale & Associates, Structural Engineers
Internship Trainee

Raigad, Maharashtra
Dec 2022 – Jan 2023

Assisted with the technical analysis and estimation of structural elements, developing foundational skills in translating project specifications into quantitative data.

ACADEMIC PROJECTS

Mahad Flood Causes and Prevention Study

Field research with local flood committee — analyzed hydrological data and recommended preventative infrastructure solutions including drainage and embankment improvements.

Energy Analysis of Public Building for Solar System Upgradation

Used Q-GIS for solar irradiance analysis — conducted cost-benefit evaluation for solar implementation in public infrastructure; presented findings to municipal stakeholders.

SKILLS

Software
Languages

AutoCAD (2D), Q-GIS, MS Excel (Advanced), Python, SQL, Power BI
English (Fluent), Hindi (Fluent), Marathi (Native)
